

Dear Members

2021 looks like being another challenging year with COVID-19.

Our members health and safety are the number one priority of HCCCC and therefore changes to the rally program may occur as the year progresses.

Your committee seeks your assistance in not only looking after your own health and safety but also that of fellow members. To help do this HCCCC will be adopting the following COVID-19 guidelines to ensure all future rallies are held in the safest possible environment.

### **HCCCC COVID-19 POLICY GUIDELINES FOR MEMBERS**

- Maintain good hygiene practices
- Follow social distancing guidelines
- Wear a face mask when it is hard to social distance or when feeling unwell
- If you have visited a COVID-19 hotspot get tested and do not attend a rally until a negative result is received
- If you visit or are visited by family or friends in a COVID-19 hotspot get tested and do not attend a rally until a negative result is received
- If you have any symptoms or are feeling unwell get tested before attending rallies
- During rallies, please follow all COVID Safe check-in requests
- Follow all Government directives and advice
- Monitor <https://www.health.nsw.gov.au/> for COVID-19 updates

If we all take the time to look after ourselves, we will ultimately be looking after each other and continue to enjoy our travels.

Regards

John Garrett

President HCCCC
